MARKET RANGE EXHIBIT

Market band: p25–p75 (shaded). p50 median (vertical line). p90 (triangle). Current (circle), Planned (square), Proposed (diamond).

LOGIC & EMPIRICAL RATIONALE

- Internal equity: proposed salaries maintain YOE-based progression without inversions.
- External anchoring: proposed bases position providers within the p25–p75 market band.
- Targeted adjustment: focuses on mid-career providers where compression risk is highest.
- Compression guardrails: no cascade adjustments proposed at this time.

COST IMPACT

Annualized incremental base cost vs current: \$138,000

Incremental beyond planned annual increases: \$104,000

Note: Fringe/benefits excluded from above figures. Apply organization-specific benefits rate for fully loaded cost.

GOVERNANCE NOTES & GUARDRAILS

- Proposed salaries do not create senior-junior inversions.
- All percentiles are from governance reference (post-annual-increase file).
- Percentiles are NOT FTE-adjusted — part-time lower percentile positioning is correct.
- Benchmark source: blended weighted-average of aggregated survey data (weighted by sample size).

FOOTNOTES & CAVEATS

- Market percentiles are from published survey data; interpolated estimates are labeled as directional.
- Cost figures reflect base salary only unless otherwise noted.
- All data sourced from the most recent annual salary increases file and survey combined file.
